Your next meter reading is scheduled to occur on or about Sep 11, 2020.

Help may be available if you or someone you know is having difficulty paying an electric bill. For more information, please visit www.firstenergycorp.com/billassist and click on "New Jersey," or call 1-800-662-3115.

We continue to find ways to assist customers during the coronavirus pandemic and its aftereffects. We will resume disconnections for non-payment no sooner than September 15, 2020, and will comply with any state orders to postpone these activities as long as necessary. However, field personnel following proper safety measures, may be in the community performing customer outreach starting in August. Customers who are having difficulty paying their bills should call us to arrange an affordable payment plan. These arrangements will not interfere with any future payment options customers may choose. We encourage all customers with overdue balances who are unable to reach a payment arrangement to pay what they can to keep their total balance as manageable as possible. For information about assistance programs residential customers may be eligible for, please visit www.firstenergycorp.com/billassist.

An important message to dog owners - to ensure that our meter readers' visits to your home are safe and productive, please keep your dog secured in an area away from the path to your meter.

Explanation of Terms

Basic Generation Service (BGS) - Generation charges for any consumer who has not chosen an electric generation supplier.

Customer Charge - Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Delivery Service Charges - Charges for the use of local wires, transformers, substations, metering, billing, other equipment, and other activities used to deliver electricity to consumers from high-voltage power lines.

Estimated Reading - On the months we do not read a meter, we calculate the bill based on past electrical usage.

Generation Charge - Charge for the production of electricity.

KWH (Kilowatt Hour) - A unit of measure for electricity usage equal to 1,000 watts used for one hour.

Late Payment Charge - A charge added to the bill on balances owed after the Due Date.

Multiplier - A number used in the calculation of kilowatt hours. The difference between meter readings is multiplied by this number to determine kilowatt hour usage or KWH/KVA.

Non-Utility Generation Charge - Charge (previously called the Market Transition Charge) that primarily recovers costs of BPU-approved power supply contracts. This charge includes the Transition Bond Charge, which JCP&L is collecting as servicer on behalf of JCP&L Transition Funding II LLC, which owns the Transition Bond Charge.

Payment Plan (Budget) - The Equal Payment Plan distributes costs more evenly over the year by billing an average amount each month.

Price to Compare - Price per kilowatt hour to be used when comparing to the price of a generation supplier.

Prorated Bill - If this is on your bill, the current billing period is for less than 26 days or more than 35 days or a rate change occurred during the current billing period.

Service Charge - Charge for opening an account.

Societal Benefits Charge (SBC) - Charge to recover costs of low-income assistance and weatherization, energy conservation programs, nuclear decommissioning, manufactured gas plant remediation, and consumer education on competition.
